

Selection Criteria

Full-time and Part-time Clinical Pharmacists

About CPS

Consultant Pharmacy Services (CPS) is the leading provider of medication reviews and related professional services to pharmacies, aged care facilities and community-based clients in Tasmania. We currently provide medication review services to over 40 aged care facilities in Tasmania, as well as providing a large number of Home Medication Reviews for community based clients. CPS also provides education services to registered and enrolled nurses in aged care facilities through face to face sessions as well as our online learning management system (see www.cpsedu.com.au)

We are seeking part-time and full-time pharmacists who are either accredited to conduct medication reviews or willing to become accredited to join our experienced team. CPS will provide ongoing mentoring and training in a supportive environment for its clinical pharmacists. Good communication skills, willingness to learn and the ability to be able to work in a self-directed manner, as well as part of a team are a priority.

Full time remuneration ranging from \$75,000 - \$110,000 (pro-rata) inclusive of superannuation would be negotiated with suitable applicants, with clinical experience guiding remuneration. Future partnership opportunities and career progression opportunities with remuneration to support this would be offered to suitable applicants in the intermediate-long-term.

Interested pharmacists are asked to submit their CV and must submit a document addressing each of the selection criteria to CPS at Shop 6, Lower Level, Bellerive Quay, 31 Cambridge Road, Bellerive 7018 or email to peter@cpsedu.com.au by no later than Friday 27th March 2015. **Any further information or queries regarding the positions should be forwarded to Peter Tenni (peter@cpsedu.com.au or 0439850086)**

SELECTION CRITERIA

1. A competent level of clinical knowledge as it relates to common disease states and medications encountered during medication reviews
2. An understanding of the current rules and regulations relating to Home Medication Reviews in Australia.
3. A high-level of verbal communication and interpersonal skills including ability to liaise effectively with consumers, general practitioners, pharmacists and other health professionals.
4. Demonstrated competency in written communication skills.
5. Well-developed organisational skills including time management.
6. Demonstrated self-motivation and initiative.
7. The ability to be able to work as part of a team.
8. Registration as a pharmacist, with accreditation for Medication Management Reviews a considerable advantage, but not essential. If not accredited, a willingness to become accredited prior to commencement of employment would be required.
9. Demonstrated working knowledge of Microsoft Office.
10. Current driver's license with access to a reliable vehicle.
11. Willingness to travel intrastate to conduct medication reviews
